ANL Specifications:
Non-Time-Delay

Voltage Rating: 80Vdc, 125Vac

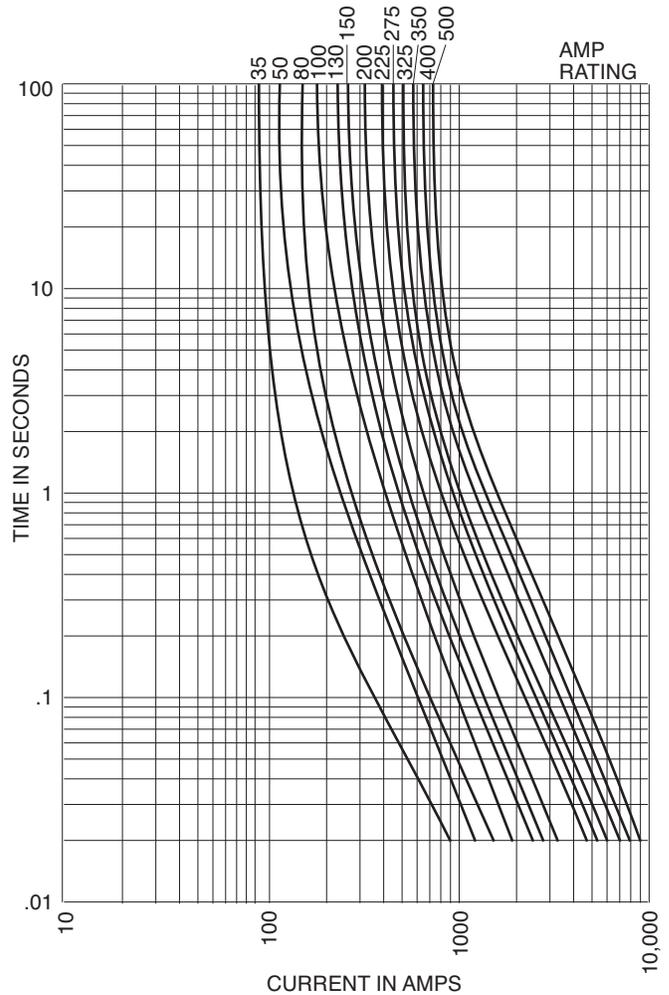

Interrupting Rating: 6,000 Amps

Recommended Fuse Block: 4164

Characteristics:

- Isolates faults in equipment systems such as lift trucks and other battery operated systems.
- Silver-plated copper links.
- Link element visible through mica window.

Average Time-Current Curve

Fuse Block 4164

Holes drilled 0.217" diameter with 0.438" counterbore with 5/16-24 stud.

Dimensions - inches
